The Astoria Literary Society
meets this evening.

Wheat is worth eighty cents a
bushel at Salem and one dollar at Astoria.

Salem boys under 20, found on
the streets after nine p. m., are locked
up in the city jail.

The board of pilot commissioners
met in Portland to-day. Capt. Gray
went up yesterday.

E. C. Holden advertises a lot of
miscellaneous articles for sale at auc-
tion to-morrow morning.

Oats will be shipped next week
from a farm near Albany through to
the N. P. R. R. front without break-
ing bulk.

Lieut. Schwatka lectures on
"Nimrod" next Tuesday in the
Congregational church at Portland.

The fifty-first anniversary of the
birth of James A. Garfield will be
celebrated next Sunday evening in
Portland.

Portland is fast extending her
street car facilities. Desirable routes
are eagerly sought after by various
companies.

Capt. J. E. Denny arrived down
yesterday afternoon. He takes im-
mediate charge of the tug Pioneer, vice
Capt. Pease.

Rev. W. T. Chapman will hold
divine service at the upper Astoria
schoolhouse at half past three next
Sunday afternoon.

If you have any books, docu-
ments, or papers, etc., that you want
bought, durable, and cheap, bring
them to THE ASTORIAN office and you
will be accommodated.

Chief of Police Lappeus, of Port-
land, who is on the incoming steamer,
brings with him Alfred Anderson and
Bertha Nelson, who are accused of
murdering the latter's husband a few
weeks ago.

The Statesman says that arrange-
ments are being perfected by the post-
office department officials for bringing
the mail from Walla Walla, and Wash-
ington territory in general, by the way
of the Northern Pacific.

The indefatigable partners Selig
& McCrea, the champion dead-wall
decorators of the northwest, are illu-
minating the thoroughfares with gor-
geous pictorial delineations of clowns,
harlequins and columbines.

Wm. Van Damme, who was
recently convicted of an attempt to
murder his wife, was last Wednesday
sentenced to ten years in the peniten-
tiary. His friends quoted Pinafore and
said "Dumme, 'tis too bad."

The Klinkit Sentinel editor has
seen a potato that actually weighed
three pounds. (Slow music). It—the
Sentinel—states that "it was a
blue mechanic." We've heard of
Mehannocks, but probably this is a
new variety.

Commissioner McFarland, in a
recent decision, declares that when a
person has failed to make entry to a
tract of land through being misin-
formed of his rights by local officers,
when otherwise entitled to make entry,
he will be protected by the department
and lose nothing, unless required to
do so by the actual demands of the
law.

We see by the Portland papers
that an individual named John Rine
who was in some way implicated with
another individual who shot a police
officer in an attempt to steal some
cigars from a saloon, was sentenced to
a term of seven years in the peniten-
tiary—for not getting away with the
cigars! John evidently made a mis-
take. Had he come down to Astoria,
deserted his wife and committed bigamy
he could have got off before the
same judge, by paying a fine of
\$300, all same Lawrence.

Reading Matter.

Those long winter evenings you need
reading matter, and now that the close
of the year is coming on don't forget
that at Carl Adler's you can subscribe
for any periodical newspaper or maga-
zine published in the United States or
Europe. Harper's, Frank Leslie's, etc.,
at publishers prices.

New goods arriving at Carl Adler's
finer and in greater variety than ever
before seen here.

Do you know who is going to be
married? Because if you do, and in-
stead of buying a wedding present, Carl
Adler can suit your taste. A look at
his elegant stock will convince you.

Cards of every color, designs and
styles—wedding cards, new year
Christmas, birthday cards, new designs
and unequalled variety, at Carl Adler's.

Convict Labor.

Goldsmith & Lowenberg, wholesale
store and tin dealers and manufacturers
in this city, signed a contract with
the governor and superintendent of the
penitentiary, on Monday, for the
labor of convicts for the term of ten
years, at forty cents per day of ten
hours. The state reserves the right
to use as many inmates as are neces-
sary to keep up the work about the
institution or do any other work that
may be needed. There are 182 pris-
oners now, and about 140 will be
turned over to the contractors, who
will at once begin the construction of
a store foundry, and when completed,
they will transfer that portion of their
business from Portland to the prison.
—Standard.

The Northern Pacific.

The track of the Northern Pacific
was laid yesterday to the second cross-
ing of Clark's fork, 312 miles from
Walla Walla junction and four miles be-
yond Belknap. Crossing will be made
on false work by Saturday night. The
advance force of graders are at the
325th mile, and the 335th mile will be
completed about December 1st. Con-
tractor Dunn, working west from
Missoula, is pushing west with vigor.
Mud and snow interfere somewhat
with operations on Clark's fork, but
in the course of a month the roughest
places will have been passed and then
the gap between the front and Mis-
soula will be rapidly closed. —Oregon-
ian, 16th.

Cape Hancock Record.

CAPE HANCOCK, Nov. 16-9 A. M.
Clear weather; bar moderate; wind
easterly, fresh. Steamer Ona crossed
out at 9 A. M.; English ship off the
bar, bound in; two steamers off the
westward, also pilot schooner; Fanny
Dutard in the bay, expected to go out
to-day.

The Home Dramatic Society are
making extensive effort to worthily
produce their entertainment next
Tuesday. Reserved seats are for sale
at J. E. Thomas's store.

There is a report from Shoalwater
Bay that two young men—Wm. Parker,
brother of the captain of Gen.
Canby, and Joe Jarvis, of Ilwaco—
started from Hennis' place, in a fish-
ing boat, for Naselle. The boat has
been picked up near the head of the
bay, bottom up, on the 12th, and it is
presumed that the men are lost.

The Norwegian ship Pendragon,
Morris master, arrived in yesterday,
eighty-six days from Sydney, with
900 tons of coal aboard, of which 500
is for Astoria. The Cambrian, Col-
umbia, and North Bend crossed out;
the Penshaw has cleared; the Helcon
went yesterday morning; the Josie
Troop goes up to-day; the Wakefield
will be down—the bottom of the river
permitting—this afternoon.

The company engaged in the con-
struction of the military telegraph line
between here and Cape Hancock, have
finished the land line to Fort Stevens;
the Washington Territory side next re-
ceives attention; the line is to be built
from Chinook point westward, follow-
ing the course of the bay, after which
the cable will be laid, and Cape Han-
cock will be in communication with
all the world and the rest of man-
kind.

Messrs. Wadhams & Elliott, of
Portland, are building a steam saw-
mill on the Chelalis river, one-half
mile west of Chelalis station. The
main building will be 36x150 feet,
containing one double circular saw of
54 inches diameter, a patent gang
saw with stationary and six movable
saws, planer, etc. Two tubular boilers,
with 70 horse-power engines. The
mill when completed will cost \$20,000.
The company have at present in the
Newkum river over 1,500,000 feet
of logs ready for driving when the fall
rain sets in.

Logic from "Long Tom."

ASTORIA, Nov. 15, 1882.
ED. ASTORIAN:
Your article this morning was well
put, in answer to the article in yester-
day's Oregonian, relating to the "As-
toria Barge." In fact, you have drawn
the matter mildly. Let us see how it
was with the Astoria and Patrician,
both of whom have just now cleared.
The Patrician took on 1,000 tons of
wheat at Portland and 870 short tons
were lightered down to her and put
in at Astoria. Let us see, then, what
it cost her to go to Portland and get
her load, and how much it would have
cost her to have accepted the Astoria
Transportation company's proposition
to have her loaded at Astoria; and
how much her owners would have
saved if she had loaded at Astoria. I
do not wish to compromise the captain
by giving these figures; they are not
obtained from the captain, but suffi-
ciently near right to show that we are
right in saying that vessels can load
at Astoria cheaper than they can by
going to Portland. Now, here is the
estimate of the Patrician's expenses
in going to Portland:
Towage up and down..... 85.00
Pilots, say 50 tons at \$1.25..... 62.50
Lighterage, 870 tons at \$1.25..... 1,087.50
Three days' time to ship going
up and back..... 300.00
Total..... \$1,535.00
There are other little matters of ex-
pense we will not reckon in dollars
and cents, such as danger of collision,
tearing the copper from ship's bot-
tom, etc., for we find that the vessel
has already incurred an expense to her
owners of something over \$1 per ton
on total cargo, in going to Portland.
Now what would it have cost her to
load at Astoria? She would have
paid out just 62 cents per ton on her
full cargo of 1,900 short tons or
\$1,225. Subtract this from the \$2,
063.50, and you will see that the
Patrician would have saved the sum of
\$838 if she had loaded entirely at
Astoria.
Now for that beautiful ship the
Astoria, named after our enterprising
city. I have often thought that the
owners of that vessel probably in-
tended to load that vessel the first
trip at Astoria. I am quite certain
that the second loading will be made
at Astoria, if in the Columbia river.
The Astoria brought down short
tons from Portland in the vessel 970 short
tons and had lightered to Astoria 989
short tons wheat. In all her full
cargo was 1,959 short tons. The folly
of sending her to Portland to load
can easily be seen without going into
details, since it will not be disputed
that it cost that vessel more to bring
to her the lightered cargo than the
Astoria Transportation company would
have charged to bring the whole cargo
of that vessel down from Portland
and put it in the vessel at Astoria.
The Astoria large company have
proven that in carrying grain and
flour at 62 cents per ton they can
make 20 to 25 cents per ton clear profit
if they have work to do, and will
bring shipping to Astoria. Is not the
river free so that it can be allowed to
do it? Yours,
LONG TOM.

A CARD.

To all who are suffering from the
errors and indiscretions of youth, nerv-
ous weakness, early decay, loss of man-
hood, etc., I will send a recipe that will
restore faded or gray hair, or red hair
to a rich brown or deep black, as may
be desired. It softens and cleanses the
scalp, giving it a healthy action. It re-
moves dandruff and itching humors.
By its use falling hair is checked, and
a new growth will be produced in all
cases where the follicles are not de-
stroyed or the glands destroyed. Its ef-
fects are beautifully shown on brashy,
weak, or sickly hair, on which a few ap-
plications will produce the gloss and
freshness of youth. Harmless and sure
in its operation, it is incomparable as a
dressing, and is especially valued for the
soft lustre and richness of tone it im-
parts. It contains never oil nor dye, and
will not soil or color white cambric;
yet it lasts long on the hair, and keeps it
fresh and vigorous.

Various Causes.

Advancing years, care, sickness, dis-
appointment, hereditary predisposi-
tion—all operate to turn the hair gray,
and either of them inclines it to shed
prematurely. AYRES' HAIR VIGOR will
restore faded or gray hair, or red hair
to a rich brown or deep black, as may
be desired. It softens and cleanses the
scalp, giving it a healthy action. It re-
moves dandruff and itching humors.

Success.

The sale of Syrup of Figs is simply
immense. Everyone is taking it, and all
admit that it is the best medicine ever
used. Children cry for it on account of
its pleasant taste, and grown people
who have used it once never take any-
thing else. Unlike other remedies for
biliousness and constipation it never
loses its power to act, and it always
leaves the organs on which it acts
stronger than before. Besides, one feels
fresh and bright and realizes that it is
Nature's own laxative. W. E. De-
ment, druggist, is agent for Astoria.

flamed parts, allaying irritation, give
relief in asthma, bronchitis, croup,
catarrh, and the throat troubles which
singers and public speakers are subject
to. For thirty years Brown's bronchial
troches have been recommended by
physicians, and always give perfect
satisfaction. Having been tested by
wide and constant use for nearly an en-
